HyLite High Performance LED Intigo Lamps - Up to 25,000 hour* Rated Design Life. Outstanding Quality of Light with Energy Savings of 89% over Incandescent, 80% over HPS / MH Lamps and 69% over CFL.

Designed for Easy Installation in New Fixtures or Existing Luminaires, HyLite LED Intigo Omni-Directional Lamps are Suitable for a Wide Variety of Applications. They feature Excellent Optics for Increased Visibility, and Low Power Consumption. With Lamp Life of up to 25,000 hours, they significantly reduce Energy Consumption and Relamping Costs, consequently decreasing Maintenance and Disposal Costs.

The HyLite LED Intigo Lamp enhances Vision for better Optical Acuity, and provides Clean, Crisp Light. Suitable for Fully Enclosed Fixtures, its Compact Size makes it the ideal Replacement for CFL, MV, HID, and HPS Lamps in existing Fixtures.

- Extremely Efficient: High Lumen Efficacy: Up to 150 LpW.
- Fully Encapsulated: Shatter-proof, High-Shock & High-Vibration Resistant.
- Optimal Design for Horizontal or Vertical Mount Sockets
- High >84 CRI. Crisp light for greater Visibility and Safety.
- Universal Voltage: 100-277V, AC
- Instant Start and Restart: No Warm-up Time required.
- Heat & Impact Resistant, UV Protected, Non-yellowing, Optical Grade Lens.
- Excellent Thermal Management with Proprietary-Designed Heat Sink.
- Cool Operation: Does not add to Heat Load while producing Brilliant Light.
- Safe and Reliable: Isolated Circuit Design.
- No UV Emissions: Does Not attract Insects.
- No Noise, Electro-Magnetic (EMi) or Radio Frequency Interference (RFi).
- Radiation/Emissions-Free: No Harmful IR Levels.
- Ingress Protection: IP65. Complete protection against Contact, Dust Infiltration and Water Splashes.
- Safe: Contain No Hazardous Materials; RoHS Compliant: No Lead, Mercury, Toxic Metals or Arsenic Gases. No Disposal requirements. Facilitates LEED® points.
- Environmentally Friendly: 98% of the HyLite LED Lamp is Recyclable.
- Low Total Cost of Ownership with Shortest Payback Period and High ROI.

Incandescent | HPS/HID | CFL | HyLite
---|---|---|---
125W | 70W | 45W | 14W
89% | 80% | 69% | Energy Savings (%)*

* Does not include Ballast Loss, Maintenance and Replacement Lamp Savings and Disposal Costs which can amount to additional Savings of 30–50%!

Recommended Applications

- Omnidirectional
- Suitable for Enclosed Luminaires
- Low Power Consumption
- Longer Life
- Energy Costs
- Solid State
- No EMI / RFi
- No Humming
- High Efficacy
- Radiation-Free
- No Noise
- High Reliability
- LM-79 Tested
- LM-80 Tested
- 150 LpW
- 1,000,000 Hour
- 5 Years Warranty

Safe and Reliable

*Depending upon the ambient temperature of the installation location

- **Minimum Lamp Compartment Dimensions for Enclosed Fixtures:** 6” x 6” x 8.5” (152mm x 152mm x 216mm)
- **To Prevent early Lamp Failure, Lamp should only be installed in Operating Environments ranging from a Minimum of -20°C (-4°F) to a Maximum of +45°C (113°F)**
- **Efficacy:** 150 LpW
- **Power Factor:** >0.98
- **Ambient Working Temperature:** -4°F–+113°F (-20°C–+45°C)
- **3000°K and 5000°K Standard CCT. Products with 2400°-6500°K (CCT) are available as “Special Orders” only and with Longer Lead Times**

*Depending upon the ambient temperature of the installation location*

---

**Warning – Risk of Fire or Electric Shock**

- **Disable all Power to the Lamp before Inspection, Installation, or Removal. Failure to do so will create a Hazardous and Fatal Working Environment.**
- **Suitable for use in Dry, Damp and Wet Locations. Lamp must be installed in accordance with National, State, and/or Local Electrical Codes. Do Not Open – No User Serviceable Parts Inside.**
- **To prevent early Lamp failure, Lamp should only be installed in Operating Environments ranging from a minimum of -20°C (-4°F) to a maximum of +45°C (113°F).**
- **Operate in Fixtures that provide the Free Flow of Air around the Lamp Heat Sink. In Enclosed Fixtures, ensure the Lamp has enough Space for Heat Dissipation. This will ensure Lumen Maintenance and extend its Working Life. When products are used in Outdoor Fixtures, ensure the space is Waterproof and Well Ventilated.**
- **Not for use on a Dimmer or Remote Controls. This Lamp must be controlled only by either a Switch or an Electronic Photosensor. Do not use a Mechanical Sensor.**
- **Not intended for use with Emergency Exit Fixtures or Emergency Exit Lights.**
- **Caution: When Installing Lamps in Corrosive Environments, HyLite suggests that a High-Temperature, Moisture-Resistant, Silicone Grease or Sealant be used to protect the Metal-threaded base of the LED Lamp to prevent Water and/or Moisture Incursion that can lead to Premature Degradation of the Lamp Base and eventual Lamp Failure. This is especially recommended for LED Lamp installations near Saltwater bodies.**
- **Installing Surge/Lightning Protectors is Highly Recommended and helps to Eliminate Premature Driver Failure caused by Surges and Power Fluctuations.**
