

HyLite High Performance LED Intigo Lamps - Up to 60,000 hour* Rated Design Life. Outstanding Quality of Light with Energy Savings of 90% over Incandescent, 80% over HPS / MH Lamps and 67% over CFL.

High Performance LED Post-Top Lamp, 50W

Designed for Easy Installation in New Fixtures or Existing Luminaires, the HyLite LED Intigo Lamps are suitable for Post-Top applications. They feature Excellent Optics for Increased Visibility, and Low Power Consumption. With Lamp Life of up to 60,000 hours, it significantly reduces Energy Consumption and Relamping Costs, consequently decreasing Maintenance and Disposal Costs.

The HyLite LED Intigo Lamp enhances Vision for better Optical Acuity, reduces Light Pollution, and provides Clean, Crisp Light. Suitable for fully enclosed Fixtures, its Compact Size makes it the ideal replacement for CFL, MV, HID, and HPS Lamps in existing Post-Top Fixtures.

- Extremely Efficient: High Lumen Efficacy: Up to 141 LpW.
- Shatter-proof, High-Shock & High-Vibration Resistant.
- High >80 CRI. Crisp Light for Greater Visibility and Safety.
- Easy Installation: No Ballast necessary. Simply Retrofit into an Existing Socket.
- Instant Start and Restart: No Warm-up time required.
- Heat & Impact Resistant, UV Protected, Optical Grade Lens.
- Excellent Thermal Management with Proprietary-Designed Heat Sink.
- Cool Operation: Does not add to Heat Load while producing Brilliant Light.
- Safe and Reliable: Isolated Circuit Design. Integral 4 kV Surge Suppressor. Includes a Free 20kA in-line SPD for added Protection.
- No UV Emissions: Does Not attract Insects.
- No Noise, Electro-Magnetic (EMi) or Radio Frequency Interference (RFi).
- Radiation/Emissions-Free: No Harmful IR Levels.
- Ingress Protection: IP64. Complete protection against Contact, Dust Infiltration and Water Splashes.
- Safe: Contain No Hazardous Materials; RoHS Compliant: No Lead, Mercury, Toxic Metals or Arsenic Gases. No Disposal requirements. Facilitates LEED® points.
- Environmentally Friendly: 98% of the HyLite LED Lamp is Recyclable.
- Low Total Cost of Ownership with Shortest Payback Period and High ROI.

Does not include Ballast Loss, Maintenance and Replacement Lamp Savings and Disposal Costs which can amount to additional Savings of 30~50%!

Suitable for

Damp Locations Enclosed Fixtures

NO LEAD, MERCURY, **HEAVY METALS**

OR TOXIC GASES

FREE!

20 kA In-line Surge Protection Device Included.

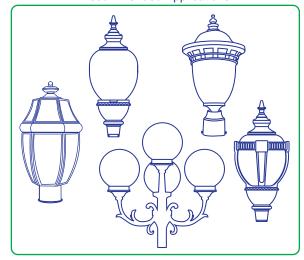

Additional Protection for your HyLite Intigo Lamp at

no Extra Cost!

& Patented

Recommended Applications

50W

Suitable √oĸ

LM-80 Tested Safe and ISTMT Tested Reliable

Up to 60,000 Hours

Reduction of up to 90%

Shock Resistant

Interference

Radiation-Free No Humming

LM-79 Tested

As part of the company's continuous product improvement program, HyLite reserves the right to change materials or modify the design of its product without notification. All Specifications subject to change without notice. All values are design and/or typical values when measured under laboratory conditions. Actual Values depend upon the ambient temperature of the installation location. Please consult factory for your specific requirements.

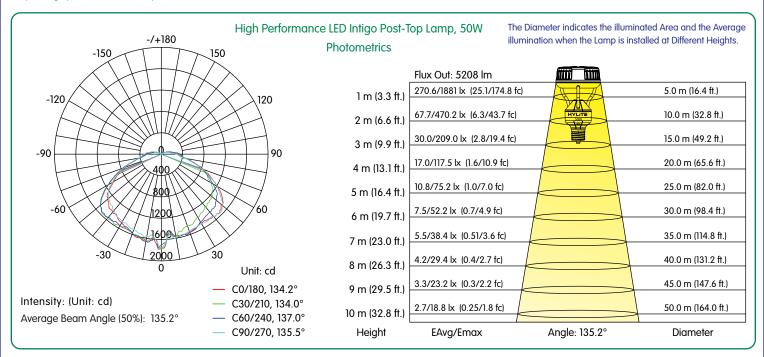

Model		Delivered	Maximum	Input Line	Base	Dimensions & Weight (each)		
No.	Watts	Lumens	Install Height	Current	Туре	Diameter	Height	Weight
HL-IPT-50W-EX39	50	6960	<26 ft. (8m)	180~500mA	E39/EX39 (Mogul)	5.1" (130mm)	8.9" (225mm)	1.7 lb. (800g)

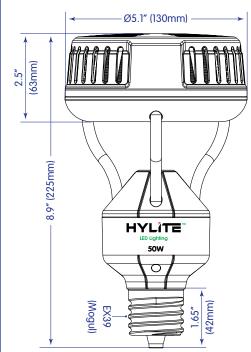

- Minimum Lamp Compartment Dimensions for Enclosed Fixtures: 12" x 12" x 15" (305 x 305 x 380mm)
- To Prevent early Lamp Failure, Lamp should only be installed in Operating Environments ranging from a Minimum of -40°C (-40°F) to a Maximum of +55°C (131°F)
- Efficacy: 141 LpW
- CRI: >80
- Beam Angle: 360°
- Max. THD (%): <20%
- Universal Input Voltage

- Power Factor: >0.98
- Protection: IP64
- Rated Life: 50~60,000 Hrs.*
- Warranty: 5 Years
- 100~277V, AC 50/60 Hz.

- Ambient Working Temperature: -20°F~+113°F (-4°C~+45°C)
- 347V, 480V Available with External Step-Down Transformer only. Please see HI-DT-50VA-480-277V Spec. Sheet at: https://hyliteledlighting.com/resources/specification-sheets/
- 5000°K Standard CCT. Products with 2400°-6500°K (CCT) are available as "Special Orders" only and with Longer Lead Times

*Depending upon the ambient temperature of the installation location

Installation: HyLite LED Lamps are designed to Work off 100V to 277V, AC. Ballast (if equipped) <u>must be</u> Bypassed or Removed from the Fixture before installing the Lamp. Eliminating the Ballast saves additional costs related to Maintenance, Energy Consumption and Performance. By-passing Ballast will also ensure that there is no EMi/RF interference. It is <u>STRONGLY RECOMMENDED</u> that the Reflector in the Fixture be removed for Optimum Thermal Management and better Heat Dissipation. This will ensure Lumen Maintenance and extend its Working Life.

Failure to follow these Instructions will result in a Damaged Product and will VOID Warranty. It could also result in an Electric Shock, or Fire.

Warning - Risk of Fire or Electric Shock

- Disable all Power to the Lamp before Inspection, Installation, or Removal. Failure to do so will create a Hazardous and Fatal Working Environment.
- Suitable for use in Dry and Damp Locations. Lamp must be installed in accordance with National, State, and/or Local Electrical Codes. Do Not Open – No User Serviceable Parts Inside.
- Operate in Fixtures that provide the Free Flow of Air around the Lamp Heat Sink. In Enclosed Fixtures, ensure the Lamp
 has enough Space for Heat Dissipation. This will ensure Lumen Maintenance and extend its Working Life.
 When products are used in Outdoor Fixtures, ensure the space is Waterproof and Well Ventilated.
- Not for use on a Dimmer or Remote Controls. This Lamp must be controlled only by either a Switch or an Electronic Photosensor. Do not use a Mechanical Sensor.
- Not intended for use with Emergency Exit Fixtures or Emergency Exit Lights.
- Caution: When Installing Lamps in Corrosive Environments, HyLite suggests that a High-Temperature, Moisture-Resistant,
 Silicone Grease or Sealant be used to protect the Metal-threaded Base of the LED Lamp to prevent Water and/or
 Moisture Incursion that can lead to Premature Degradation of the Lamp Base and eventual Lamp Failure.
 This is especially recommended for LED Lamp installations near Saltwater Bodies.
- Installing Surge/Lightning Protectors is Highly Recommended and helps to Eliminate Premature Driver Failure caused by Surges and Power Fluctuations.
