HyLite High Performance LED XPL Series Linear Lights - Up to 50,000 hour Rated Design Life. Outstanding Quality of Light with Energy Savings of up to 86% over Incandescent, 73% over HPS/MH and up to 63% over Fluorescent Tube and CFL.

**High Performance LED XPL Series Linear Lights**

- Water-proof
- Corrosion-proof
- Dust-proof
- Shock-proof
- Shatter-proof
- Impact-resistant
- Vandal-proof

**Input Voltage:** AC:100-277V, 50/60Hz  
**CCT:** 3000K, 4000K, 5000K  
**CRI:** >80  
**Power Factor:** >0.9

**Working Temperature:** -4°F~122°F (-20°C~50°C)  
**Humidity Range:** 10%~90%  
**THD:** <15%  
**IP Rating:** 67
Warning - Important Safety Instructions. Risk of Fire and/or Electric Shock

- Read and Understand the detailed Installation Instructions before installing the HyLite XPL Series LED Linear Lights.
- Disable, disconnect or turn off power to the fixture before inspection, installation, or removal. Failure to do so will create a hazardous and fatal working environment.
- All inspections, installation or removal must be performed by qualified electrician only and in accordance with National, State and Local Electrical Codes. Failure to do so may result in a serious personal injury.
- Luminaire wiring, power supply, or other electrical parts may be damaged when drilling for installation. Inspect wiring and components for damage before turning on power.
- Do not make, alter, relocate or remove wiring, power supply or any other electrical component any open holes in an enclosure of wiring or electrical components during installation.
- Not intended for use with emergency exit fixtures or emergency exit lights.
- Do not open – no user serviceable parts inside.
- Verify that supply wiring voltage matches power supply voltage by comparing it with the power supply label.
- Do not mount or support these fixtures in a manner that can cut the outer jacket or damage wire insulation.
- Do not restrict fixture ventilation. Allow for some volume of airspace around fixture. Avoid covering LED fixtures with insulation, foam, or other material that will prevent convection or conduction cooling.
- Notice: Risk of Product Damage: Failure to follow instructions could result in damage to product and void ALL warranties!

Cleaning Instructions:

- It will occasionally be necessary to clean the outside of the lens. Frequency of cleaning will depend on ambient dirt level and minimum light output which is acceptable to the user.
- Lens should be wiped with a DAMP cloth with a solution of warm water and a mild, non-abrasive household detergent. Dry with soft, dry, clean cloth.
- Do not use chemical cleaners such as powder cleansers, bleach, etc. Do not use scouring pads, as this will scratch and damage the lens finish.
- Do not wipe with a soiled cloth or wet towel - these may leave a residue that can damage finish.

1. Drill 4 holes of 5/16" (8mm) Diameter on the Ceiling or Wall as required for mounting the XPL Light Fixture

   ![Drill holes diagram](image)

   2.15" (55mm)

   For 2 ft. (60cm) XPL LED Light

   46.5" (1180mm)

   For 4 ft. (120cm) XPL LED Light

2. Install the Brackets on the Ceiling or Wall. Note: Hooks must face in the same direction.

   ![Brackets diagram](image)

3. Tighten Screws at each end, leaving 1/8"-3/16" (3-5mm) space for inserting Brackets.

   ![Tighten screws diagram](image)

4. Install the light and tighten the Screws securely.

   ![Install light diagram](image)

   Suspension Hardware (supplied by others)

   If suspending the XPL Light Fixture, use two cables (not supplied) to support luminaire weight.
